

# Nature

The Nature range has been inspired by the forces of nature, due to our desire to mirror the strength, elegance and timelessness of the elements they provide us: minerals, metals, wood, earth.

Based on this idea, the squeezers of the Nature range let materials and colours take centre stage. Neutral, restrained and smart materials and colours which transmit those sensations in the establishments where the juicers are installed, giving them a higher, both real and perceived, high end quality.

## Z14 Nature Self Service

### Adaptable to all types of businesses

This is the recommended option for businesses with high juice consumption wanting to provide Self Service. The high capacity of its baskets and of its peel containers provide it with great autonomy, a key factor for buffets, restaurants and the retail sector.

## The evolution to Nature

- High quality injected plastic nuts
- Smoky grey front cover
- EVS Advanced juice extraction system
- Automatic filter
- Higher juice extraction speed
- New Self Service Supreme injection tray
- 9 and 16 kg capacity load basket
- New digital control plate (bin counter, acoustic warnings, standby,...)

— **Increased durability:** as there are no elastic belts, there are no breakages, something that could also affect the optimal functioning of the blade.

— **Greater functionality:** avoiding maintenance tasks and replacement of broken or worn belts. Cleaning the kit is also much easier.

— **Greater yield:** the new kit leads to greater juice extraction yield. Thanks to its new design, up to 10% more juice can be obtained.

## How does the automatic filter work?

The Auto Cleaning System improves the juicer's efficiency due to the automatic cleaning filter. The new filter has a belt made of polyurethane that moves, thanks to a motor axle, when the squeezer is running. The belt cleans the filter by sweeping the pulp and the seeds resulting from juicing the fruits, which are then collected in the peel collection bins.

## Technical features

Fruit per minute	16
Weight	578 kg
Peel collection	Bins
Fruit diameter	55-75 mm/70-90 mm Opt: 45-60 mm/53-60 mm
Measurements	788 (H) x 478 (W) x 444 (D) mm
Protection	Blockage sensors
Basket capacity	9 kg / 16 kg optional
Programmer	Yes
Filter	Automatic
Dispensing tap	Yes

Smoky grey front cover

Injected Self Service Tray

Automatic filter
